

CHANNEL NIANGA

ARTIFICIAL INTELLIGENCE SCIENTIST

Profile

Enthusiastic and driven master's student specializing in Artificial Intelligence, seeking an internship opportunity from May 2025 to September 2025 to leverage theoretical knowledge and practical skills in machine learning, data analysis, and programming. Eager to apply expertise to contribute effectively in real-world AI applications.

EXPERIENCE

FULLSTACK DEVELOPER

Sept 2021- Nov 2022

SNCF Réseau Paris, FRANCE

- Built web app & API for railway employees
- Data Analysis
- Communication of analysis results
- Developed automated controls

Technical environment: Angular(HTML, CSS, Typescript), Git,Python, Pandas, SQL

PROJECT

PREDICTING THE NBA'S DEFENSIVE PLAYER OF THE YEAR (DPOY) WITH MACHINE LEARNING

Sept 2023 - Oct 2023

- Scraped the Basketball Reference website
- Data Cleaning
- Exploratory analysis
- Feature Selection
- Modeling & Analysis of Training Results
- Evaluation of Models on Dataset & Results

Technical environment: Python, Pandas, Selenium, Scikit-learn, Model Selection, Model Evaluation, BeautifulSoup, Matplotlib,

EDUCATION

MSC. IN ADVANCED COMPUTER SCIENCE WITH ARTIFICIAL INTELLIGENCE

Université de Caen

2024 - 2026

BS. IN COMPUTER SCIENCE

Conservatoire National des
arts et Metiers

2021 - 2023

BS. IN ENGINEERING SCIENCE

Université de Lorraine

2017 - 2020

SKILLS

- Deep Learning
- Python Coding
- Machine Learning Algorithms
- Natural Language Processing
- Problem-Solving
- R and MATLAB
- Ethical AI
- Strong Communication
- Data Mining and Big Data
- Version Control Systems
